

Anonymous* Feedback Platform

Enterprise end-to-end solution for collecting, analyzing, and acting on anonymized user feedback

Steven Correa | Capstone Project | January 2026

The Problem

70%

of employees hesitate to share critical feedback

Fear of retaliation prevents honest communication

Privacy concerns limit willingness to speak up

Leadership struggles to access authentic feedback

"This is an organizational communication problem that can be solved."

The Solution

A secure platform enabling authenticated yet anonymous feedback — bridging trust between employees and leadership.

AI-Powered

Smart scrambling & suggestions
protect identity while preserving
message clarity

Zero-Knowledge Auth

Verify legitimacy without revealing
identity through advanced
cryptography

Actionable Insights

Executive dashboards turn
anonymous feedback into
organizational change

MVP Features

Feedback Submission UI

- AI-based text scrambling
- Smart nudges & auto-edit suggestions
- Privacy-first design

Authentication

- Zero-knowledge identity via AAD
- Truly anonymized submissions
- Multi-step verification

Middleware Layer

- Secure data storage
- Weekly batch processing
- Anonymization pipeline

Executive Dashboard

- Quarterly action suggestions
- Culture pain point analysis
- Change tracking metrics

Technology Stack

Runtime
Bun

Blazing fast performance & modern DX

Frontend AI
Transformers.js

Client-side ML for privacy

Backend
Node.js / Go

Scalable API layer

Database
PostgreSQL

Robust structured storage

Visualization
Chart.js

Interactive dashboards

Monitoring
OpenTelemetry

Full observability

Technologies chosen for performance, developer experience, and privacy-first architecture

How It Works

1

Submit

Employee writes feedback with AI assistance

—

2

Anonymize

Multi-layer privacy protection applied

—

3

Aggregate

Weekly batching removes timing signals

—

4

Analyze

AI surfaces actionable insights

Executive Dashboard

- Culture pain points
- Quarterly recommendations
- Trend analysis

HR/PeopleOps Dashboard

- Change adoption tracking
- Efficacy metrics
- Action item management

Empowering Authentic Organizational Feedback

Building trust between employees and leadership through technology that protects privacy while enabling meaningful change.
